

Free PPE Disclaimer

Hi there,

Please find enclosed, as promised, face-shields which should help you in your fight against Covid19.

These are community made visors, both 3D printed at home and delivered by local volunteers. They are intended to help protect the most important people in our community; our health and care givers. With this in mind, and in using the visors please note the following:

Disclaimer

- **This PPE should not be used in a surgical environment**
- **PPE design has no approvals or warranties against defects and are supplied purely on a good faith basis.**
- **PPE must be sterilised before first use and regularly thereafter.**
- **Visors must only be used in conjunction with other forms of personal protection and never relied on as a sole method of protection**
